- 5.00pm**            **Refreshments and networking**

## AIMS

This seminar will share knowledge, experience and learning to enable representatives of public, private and voluntary sector organisations from across the capital help make London a world leader in addressing the climate challenge.

Specific aims for the event include:

- To help delegates identify the opportunities in the 'UK Government Sustainable Procurement Action Plan' and the 'Mayor's Climate Change Action Plan', discuss challenges to implementation and explore case studies that will provide inspiration in overcoming these.
- To empower delegates to devise and deliver innovative action plans to put policy aspirations into practice.
- To identify areas for collaboration and collective action moving forward.

## THIS SEMINAR WILL PROVIDE

- Insights and inspiration in relation to innovative case studies and good practice examples
- Practical tips and tools to influence organisational and individuals' behaviour, and deliver against carbon reduction aspirations.
- Networking to build contacts and gain awareness of what others are doing.

## WHO SHOULD COME?

The seminar is aimed at those working mainly in the public or voluntary sectors to deliver improved energy and / or resource efficiency in the capital and 'One Planet' lifestyles. Whether it's working to encourage participation in energy efficiency projects, or promoting the take up of sustainable goods and services, we welcome you to sign up for this free event.

You could be working on issues including: transport, energy, waste and resources, sustainable communities, built environment, planning, sustainable consumption and production, local procurement or other subjects.
